## Software Key

Hompath Software comes with the USB Dongle which is required to start the software. Please protect the key safely.

Please insert the Dongle before starting the software.

### **Registration of Software**

Hompath [Version] requires the registration of the software for the first time. So on starting an application for the first time the application asks for user registration where you will have to enter your Product Key.

Please follow following steps to generate the Product Key for your software.

1. The software generates a Unique ID for your software as shown in below image.

Pi	oduct Registration Details	x		
Registration Details				
Kindly send Unique Customer ID to HOMPATH along with your details through Email or post and we will send you your valid Product key in order to activate this software.				
Your Unique ID:	CDADOCOEAA-B89ADDCB6-E9CBCB			
	Contact			
Please write or paste your received Product key in space provided below and only after this one time process is successfully completed you can run all modules of this software.				
Enter <u>P</u> roduct Key*				
	Register Cancel			

- 2. Please mail your Unique ID to Hompath support at <a href="mailto:support@hompath.com">support@hompath.com</a> or call Hompath support number provided in the package box to get the Product Key.
- 3. Once you receive the Product Key, Please enter it in the "Enter Product Key" text box and click on Register Button.
- 4. Now the Software will start and is ready to use.

For any assistance, please contact Hompath Support using following contact details.
